

Microsoft

Exam Questions MB-335

Microsoft Dynamics 365 Supply Chain Management Functional Consultant Expert

NEW QUESTION 1

- (Topic 1)

You need to configure production control parameters for liquid cleaning solution manufacturing.

What are two possible ways to achieve this goal? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Require an electronic signature when the formula is approved.
- B. Select Block editing and approve the formula.
- C. Select the Block removal of approval option for the formula
- D. Select the Block editing option onl
- E. D18912E1457D5D1DDCDBD40AB3BF70D5D

Answer: BC

NEW QUESTION 2

HOTSPOT - (Topic 1)

You need to resolve the production manager issue.

How should you configure manufacturing execution? To answer, select the appropriate option in the answer area.

NOTE: Each correct selection is worth one point.

Automatic BOM consumption stage

NEW QUESTION 3

- (Topic 1)

You need to configure costing for raw materials used to manufacture unscented cleaning solution. Which form should you use?

- A. Cost basis type
- B. Quantity and margin template
- C. Pricing calculation
- D. Pricing template

Answer: B

NEW QUESTION 4

- (Topic 2)

You need to set up the metal production route and BOM. Which three actions should you perform? Each correct answer presents part of the solution. NOTE: Each correct selection is worth one point.

- A. Set the operation route type as Standard.
- B. Set the input warehouse on the resource to the vendor warehouse.
- C. Set the operation route type as Vendor.
- D. Set all BOM lines warehouse to the production warehouse.
- E. Set all the BOM lines to resource consumption.

Answer: BCD

NEW QUESTION 5

- (Topic 2)

You need to set up the configuration model to price the motorcycles correctly. What should you do?

- A. Set Order type in price model to Sales Order and Pricing method in Version to Attribute based
- B. Set Order type in price model to Sales Order and Pricing method in Version to Cost based.
- C. Set Order type in price model to Sales Quotation and Pricing method in Version to Attribute based.
- D. Set Order type in price model to Sales Quotation and Pricing method in Version to Cost based

Answer: A

NEW QUESTION 6

HOTSPOT - (Topic 2)

You need to configure system attributes. Which attribute types should you use? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

Attribute	Attribute Type
Trim	Text Integer Boolean Reference
Storage Package	Decimal Integer Boolean Reference
Engine	Decimal Integer Boolean Reference

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

Attribute	Attribute Type
Trim	Text Integer Boolean Reference
Storage Package	Decimal Integer Boolean Reference
Engine	Decimal Integer Boolean Reference

NEW QUESTION 7

- (Topic 3)

You need to create the production orders for standard model bicycles. Which method should you use?

- A. Sales order line
- B. Master planning execution
- C. Supply schedule form
- D. Released item
- E. All production orders form

Answer: C

NEW QUESTION 8

- (Topic 3)

You need to configure the bicycles?? production resource. Which option should you use?

- A. Exclusive capacity set to yes and enter a Batch capacity.
- B. Exclusive capacity set to no and infinite capacity.
- C. Exclusive capacity set to yes and infinite capacity.
- D. Exclusive capacity set to no and enter a Batch capacity.

Answer: C

NEW QUESTION 9

HOTSPOT - (Topic 4)

You need to configure the requirements for metal fabrication equipment maintenance. What must you configure? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Requirement

Maintenance technician assignment.

Ensure maintenance for warranty schedule.

Configuration

- Assign a functional location to a worker.
- Assign a functional location to a worker.
- Create a site financial dimension.
- Set limit to responsible to no.
- Set limit to responsible to yes.

- Time
- Time
- Counter
- Capacity load

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

Answer Area

Requirement

Maintenance technician assignment.

Ensure maintenance for warranty schedule.

Configuration

- Assign a functional location to a worker.
- Assign a functional location to a worker.
- Create a site financial dimension.
- Set limit to responsible to no.
- Set limit to responsible to yes.

- Time
- Time
- Counter
- Capacity load

NEW QUESTION 10

- (Topic 4)

You must ensure that the firepit product is available for sale. How should the product be released?

- A. Release the engineering product version and then assign the route.
- B. Connect the BOM to an engineering product version before release.
- C. Connect a route to an engineering version before release.
- D. Release the engineering product version and then assign BOM.

Answer: B

NEW QUESTION 10

DRAG DROP - (Topic 5)

You need to configure the solution for the two issues the production manager reported.

How should you complete the configurations? To answer, move the appropriate configurations to the correct issues. You may use each configuration once, more than once, or not at all. You may need to move the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Configurations

- Assign a maintenance worker.
- Assign a capability to a resource.
- Create a working calendar.
- Define the capability priority.

Production resource configurations

Issue	Configuration
Issue 1	
Issue 2	

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

Configurations

- Assign a maintenance worker.
- Assign a capability to a resource.
- Create a working calendar.
- Define the capability priority.

Production resource configurations

Issue	Configuration
Issue 1	Create a working calendar.
Issue 2	Define the capability priority.

NEW QUESTION 13

HOTSPOT - (Topic 5)

You need to configure the warehouse manager's ModelA subassembly production requirements. Which setting should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Warehouse work policy

Work policy

Production selection

Setting

 Cross-docking

NEW QUESTION 17

DRAG DROP - (Topic 5)

You need to configure the reservation methods prototype production order as planned by the engineering team.

How should you configure the prototype production order? To answer, move the appropriate configurations to the correct requirements. You may use each configuration once, more than once, or not at all. You may need to move the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Configurations

- Manual
- Scheduling
- Release to warehouse

Production resource configurations

- Requirement
- Production order
- Item model group

Configuration

-
-

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

Configurations

- Manual
- Scheduling
- Release to warehouse

Production resource configurations

- Requirement
- Production order
- Item model group

Configuration

- Scheduling
- Manual

NEW QUESTION 19

- (Topic 5)

You need to resolve the issue reported by Buyer1.

Which two features should you configure? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Assign new engineering version for parent BOM.
- B. Enable active for planning for lifecycle status.
- C. Assign lifecycle state for parent BOM.
- D. Disable active for planning for lifecycle status.
- E. Assign lifecycle state for subassembly.

Answer: BE

NEW QUESTION 24

- (Topic 5)

You need to configure the controller's ModelB asset requirements for the off-season. What should you do?

- A. Use the default functional location
- B. Create a functional location.
- C. Create a location profile.
- D. Create a location type.

Answer: B

NEW QUESTION 29

DRAG DROP - (Topic 5)

You need to configure the production requirements of the controller.

What should you configure? To answer, move the appropriate configurations to the correct requirements. You may use each configuration once, more than once, or not at all. You may need to move the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Configurations

- Item group
- Item and category
- Item and resource
- Production group

Production ledger posting

- Requirement
- Prototype production postings
- Spare part ledger posting

Configuration

-
-

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

Configurations

- Item group
- Item and category
- Item and resource
- Production group

Production ledger posting

Requirement

- Prototype production postings
- Spare part ledger posting

Configuration

- Item group
- Item and resource

NEW QUESTION 32

- (Topic 5)

You need to resolve the ModelA charging issue.

Which two configurations should you set on the work order finite capacity? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Ignore scheduled execution
- B. Asset
- C. Tool
- D. Worker
- E. Ignore schedule

Answer: BC

NEW QUESTION 34

HOTSPOT - (Topic 6)

You need to determine the batch values on the combined mix batches for OperatorA.

Which values should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area	
Field	Merged result
Batch Number	<ul style="list-style-type: none"> Based on batch group Manually entered Based on batch group Lowest Highest
Expiration Date	<ul style="list-style-type: none"> Manually entered Based on batch dates group Manually entered Lowest Highest
Lot/Serial Control Number	<ul style="list-style-type: none"> All are retained All are retained Manually entered Lowest Highest

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

Field	Merged result
Batch Number	<ul style="list-style-type: none"> Based on batch group Manually entered Based on batch group Lowest Highest
Expiration Date	<ul style="list-style-type: none"> Manually entered Based on batch dates group Manually entered Lowest Highest
Lot/Serial Control Number	<ul style="list-style-type: none"> All are retained All are retained Manually entered Lowest Highest

NEW QUESTION 36

- (Topic 6)

You need to resolve the issue for UserB.

What are two possible ways to achieve this goal? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Set up configuration and weight for partial visibility.
- B. Create a product master with predefined variants for ounces and boxes.
- C. Set up configuration and weight for full visibility.
- D. Create a catch weight item.

Answer: CD

NEW QUESTION 40

HOTSPOT - (Topic 6)

You need to resolve the issue for UserG.

What should you do? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

Requirement	Action
Item setup	<ul style="list-style-type: none"> Assign size and color. Assign size and color. Assign Product Master constraints. Assign size and style. Assign product category.
Lifecycle state	
Lifecycle state	<ul style="list-style-type: none"> Assign to the Product Variant. Set as inactive after the holiday season. Assign to the Product Master. Set as inactive after the holiday season. Assign to the Product Variant. Set as inactive after the holiday season. Assign to the Product Master. Set as active after the holiday season. Assign to the Product Variant. Set as active after the holiday season.

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

Requirement	Action
Item setup	Assign size and color.
Lifecycle state	Assign size and color.
	Assign Product Master constraints.
	Assign size and style.
	Assign product category.
Lifecycle state	Assign to the Product Variant. Set as inactive after the holiday season.
	Assign to the Product Master. Set as inactive after the holiday season.
	Assign to the Product Variant. Set as inactive after the holiday season.
	Assign to the Product Master. Set as active after the holiday season.
	Assign to the Product Variant. Set as active after the holiday season.

NEW QUESTION 44

HOTSPOT - (Topic 6)

You need to resolve the issue for UserE.

Which configuration options should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Requirement	Configuration option.
Create the cost.	Define the Cost basis.
Update the formula.	Create Active Cost.
	Use a Calculated FIFO tier.
	Define the Cost basis.
	Use a BOM calculation.
Update the formula.	Commodity Pricing Calculation
	Commodity Pricing Calculation
	Default Cost Price
	Inventory Recalculation

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

Requirement	Configuration option.
Create the cost.	Define the Cost basis.
Update the formula.	Create Active Cost.
	Use a Calculated FIFO tier.
	Define the Cost basis.
	Use a BOM calculation.
Update the formula.	Commodity Pricing Calculation
	Commodity Pricing Calculation
	Default Cost Price
	Inventory Recalculation

NEW QUESTION 46

HOTSPOT - (Topic 6)

You need to configure the system to meet the requirements.

What should you use? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

Requirement	Setup
Ensure proper profit margin updating to account for seasonal fluctuations for raw materials.	Trade agreement
	Commodity pricing template
	Trade agreement
	Formula version
	Pegged supply line type
Accommodate batch production during non-holiday season months.	Formula version
	Formula version
	Batch attribute
	Production parameter

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

Requirement	Setup
Ensure proper profit margin updating to account for seasonal fluctuations for raw materials.	Trade agreement
	Commodity pricing template
	Trade agreement
	Formula version
	Pegged supply line type
Accommodate batch production during non-holiday season months.	Formula version
	Formula version
	Batch attribute
	Production parameter

NEW QUESTION 47

- (Topic 7)

You have a product that can be manufactured on two different production lines in the same warehouse. You create resources and then create individual input locations for the resources. You create two routes. Each route uses different resources.

Materials are staged for consumption in different locations based on the resources being utilized for production.

You need to set up the formula to consume the goods from the correct line-side location. What should you do?

- A. Select resource consumption and the operation for each line.
- B. Select the plan group and consumption operation for each line.
- C. Specify a site in the formula header.
- D. Select a warehouse and consumption operation for each line.

Answer: A

NEW QUESTION 49

DRAG DROP - (Topic 7)

A company overstates on-hand raw materials due to the time it takes to post raw materials as consumed when production orders are processed.

All items used to manufacture finished goods must be consumed when a finished good is reported as finished. You must not change all bill of materials lines to use the option of flushing principal.

You need to ensure that all production orders consume raw materials at Report as finished. Which four actions should you perform in sequence? To answer, move the appropriate

actions from the list of actions to the answer area and arrange them in the correct order.

Actions

- In the Production order status section of Production control, select **Report as finished**.
- In the Production order status section of Production control, select **Start**.
- On the Bill of materials section of Inventory management, select **Report as finished**.
- Select **Make default for all users**.
- In the Picking list journal, select **Always in the Automatic BOM** consumption.
- Select default values in the ribbon.

Answer Area

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

Actions

- In the Production order status section of Production control, select **Report as finished**.
- In the Production order status section of Production control, select **Start**.
- On the Bill of materials section of Inventory management, select **Report as finished**.
- Select **Make default for all users**.
- In the Picking list journal, select **Always in the Automatic BOM** consumption.
- Select default values in the ribbon.

Answer Area

- In the Production order status section of Production control, select **Start**.
- In the Picking list journal, select **Always in the Automatic BOM** consumption.
- In the Production order status section of Production control, select **Report as finished**.
- Select **Make default for all users**.

NEW QUESTION 53

- (Topic 7)

You produce 100 total units of finished goods. The amount of material used to produce the goods is the equivalent amount of material needed to produce 105 finished goods.

The company must track variances in material compared to the original estimated amount. You must only use one picking list journal for each production order.

You need to post a picking list that accounts for the material required to produce 105 finished goods.

What should you do?

- A. Report as finished five additional units in the error quantity field.
- B. When creating the lines for a picking list, set the value of the quantity option to 105.
- C. Post a picking list for 100 to account for the originally estimated amount
- D. Post an additional picking list to account for the equivalent amount of material to produce 5 finished goods.
- E. In the Bill of materials production details, edit the estimated amount for each line to equal 105 units of raw material.

Answer: B

NEW QUESTION 54

- (Topic 7)

A company uses Dynamics 365 Supply Chain Management.

The marketing group needs to be able to view a manufacturer's suggested retail price (MSRP) for a new bill of materials (BOM) item when the cost of the BOM item is calculated.

You need to configure the functionality. What should you do?

- A. Set the sales price model field on the calculation group to item sales price.
- B. Use the category price rules to generate a trade agreement with the sales price.
- C. Add a profit setting percentage to a calculation group.
- D. Add a profit setting percentage to the released BOM product.
- E. Add a profit setting percentage to a cost group.

Answer: B

NEW QUESTION 58

DRAG DROP - (Topic 7)

A manufacturing company uses Dynamics 365 Supply Chain Management. The company operates three eight-hour shifts per day, Monday through Friday. The company purchased equipment for a new process that cannot be performed with existing equipment. This specialized equipment performs only this unique task. The machinery must always be monitored and controlled by a worker.

The machine must be added to the existing production line and be ready as soon as possible. Future planned production orders must not overload the running maximums of the new machine.

You need to configure the system.

Which four actions must you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

NEW QUESTION 61

- (Topic 7)

A company has a Dynamics 365 Supply Chain Management implementation. The company plans a promotional sales campaign that targets top customers. The sales campaign will guarantee that orders are delivered within a specific two-week period.

The system configuration must prioritize a group of similar production orders so they can be scheduled at the same time.

You need to configure the system. What should you create?

- A. Production pool
- B. Production flow model
- C. Production unit
- D. Production group

Answer: A

NEW QUESTION 63

- (Topic 7)

A company manufactures high performance bicycles.

The bicycles come in several different preconfigured models. Customers can also purchase custom configurations. Several add-ons are dependent on other accessories in order to be installed.

You need to set up the system to handle the different product configurations. What should you do?

- A. Create an expression constraint.
- B. Create a phantom BOM.
- C. Create a co-product.
- D. Create a batch version.

Answer: A

NEW QUESTION 64

DRAG DROP - (Topic 7)

You are the product definition manager for a car manufacturing company. You set up and maintain the production configuration models used at the company. You must build a new configuration model and Include Constraints in the model. You need to determine which constraint type to use for each scenario.

Which constraint type should you use? To answer, drag the appropriate constraint types to the correct scenarios. Each constraint type may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point

Constraint types	Answer Area	Scenario	Constraint type
<input type="text" value="expression"/> <input type="text" value="table"/>		A specific wheel depends upon selection of the sport package and large engine. A manual transmission cannot be selected.	<input type="text"/> <input type="text"/>

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

Constraint types	Answer Area	Scenario	Constraint type
<input type="text" value="expression"/> <input type="text" value="table"/>		A specific wheel depends upon selection of the sport package and large engine. A manual transmission cannot be selected.	<input type="text" value="expression"/> <input type="text" value="expression"/>

NEW QUESTION 68

- (Topic 7)

A pharmaceutical company is implementing Dynamics 365 Supply Chain Management.

The formulas for medication include a single active ingredient. The active ingredient will be defined with a target level and specified deviation ranges from the target.

You need to set up the active ingredient items.

Which two actions must you perform? Each answer presents a partial solution. NOTE: Each correct selection is worth one point.

- A. Configure expiry dates for a batch.
- B. Configure inventory batch attributes.
- C. Enable serial tracking.
- D. Enable batch tracking.

Answer: BD

NEW QUESTION 70

- (Topic 7)

A company implements Dynamics 365 Supply Chain Management.

Due to increased demand and limited space in the work cell area for product LOOM, you must subcontract overflow work to another company. You have the following requirements:

- Locate a warehouse at the subcontractor building.
- Support picking and shipping activity tracking.
- Associate costs of transporting materials between the locations in the cost of the finished product.

You need to modify the production flow.

Which three actions should you perform? Each correct answer presents part of the solution.

NOTE Each correct selection is worth one point.

- A. Create transfer activities and assign them to the subcontractor.
- B. Create a new production flow version.
- C. Modify the overflow work operation and associate it with the subcontractor.
- D. Create a resource and work cell resource group for the subcontractor.
- E. Modify the overflow work activity and assign it to the subcontractor.

Answer: ADE

NEW QUESTION 72

- (Topic 7)

A manufacturing plant uses lean manufacturing Operators process Kanban consumption manually using a mobile device.

The production team must use automatic empty registration for some of the event. Unbars Registration must occur when the last job of a Kanban is completed.

You need to update the Kanban rule to meet this requirement. What Kanban should you update?

- A. Set a fired Kanban quantity.
- B. Select to register as empty when handling units are received.
- C. Select to register as empty when the source requirement is registered.
- D. Select to manually register as empty

Answer: B

NEW QUESTION 74

- (Topic 7)

You maintain responsible resource calendars and production orders for a manufacturing company. All production resources use the same production calendar.

A machine in the facility is defective and must be closed for repairs for the next two days. You need to configure the resource calendar to close the resource for production for the

next two days.

What should you do?

- A. Navigate to the resourc
- B. Change the calendar 10 closed on the resource.

- C. Navigate to the calendar used for production and close the next two days.
- D. Navigate to the resourc
- E. Configure a calendar deviation to set the calendar to closed for the next two days.
- F. Navigate to the resource grou
- G. Change the calendar to closed on the resource group.

Answer: C

NEW QUESTION 75

HOTSPOT - (Topic 7)

A company implements Dynamics 365 Supply Chain Management. You run a master plan each week.

You need to resolve the issue in the scenario.

What should you do? To answer, select the appropriate option in the answer area. NOTE: Each correct selection is worth one point.

Answer Area

Scenario

Production orders do not appear in the Production control module.

...

You must ensure visibility to all resources during planning processes.

Action

- Rerun master planning.
- Firm the planning production orders.
- Rerun master planning.
- Increase the coverage time fence.
- Edit the plan. Set the Scheduling method to Job scheduling.
- Edit the plan. Set the Scheduling method to Job scheduling.
- Increase the coverage time fence on the plan.
- Assign a higher ranking to the sequence group assigned to items.

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

Answer Area

Scenario

Production orders do not appear in the Production control module.

...

You must ensure visibility to all resources during planning processes.

Action

- Rerun master planning.
- Firm the planning production orders.
- Rerun master planning.
- Increase the coverage time fence.
- Edit the plan. Set the Scheduling method to Job scheduling.
- Edit the plan. Set the Scheduling method to Job scheduling.
- Increase the coverage time fence on the plan.
- Assign a higher ranking to the sequence group assigned to items.

NEW QUESTION 77

DRAG DROP - (Topic 7)

You are a manufacturer using Druitt 365 Supply Cham Management A new series of orders is authorized for production.

You need to identify which documents to use for the released production order.

Which document should you use for each requirement? to answer drag the appropriate documents to the correct requirements. Each document may be used once more than once. or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Documents

- Route card
- Route job
- Job card

Answer Area

Requirement	Documents
View and scan the jobs in a production order with multiple jobs in a single page.	<input type="text"/>
Provide a separate sheet of paper for each step in the production process.	<input type="text"/>

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

Documents

Route card

Route job

Job card

Answer Area

Requirement

View and scan the jobs in a production order with multiple jobs in a single page.

Provide a separate sheet of paper for each step in the production process.

Documents

Route card

NEW QUESTION 82

- (Topic 7)

A manufacturer uses discreet orders and manually consumes raw material after reporting products as finished.

You are performing an end-of-month closing for remaining picking lists on production orders. You must not be required to consume the full amount of material on production order picking lists as a result of improved production efficiency. When the production manager verifies that no material is left to consume, there are remaining back-ordered amounts.

You need to pick the line item short and eliminate the remaining demand. What should you do?

- A. Enter the consumption amount on the line to match the actual amount used and select end on the production order picking list.
- B. Change the Coverage group on item option to manual
- C. Delete the item from the Bill of materials for the finished good.
- D. Enter the consumption amount on the line to match the actual amount used, and delete the remaining amount.

Answer: A

NEW QUESTION 83

DRAG DROP - (Topic 7)

A glass bottle manufacturer uses route operations to schedule resources and track manufacturing costs.

The company has recently seen an increase in demand and purchases another resource that costs more to run. The company uses the same costs per resource. The company must be able to track cost contributions for the new resource.

You need to create a cost category for the new resource.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

NOTE: More than one order of answer choices is correct You will receive credit for any of the correct orders you select.

Actions

- ☰ Assign the cost group for the indirect cost to the route operation.
- ☰ Update the cost price on the existing cost categories.
- ☰ Assign the surcharge node to the resource.
- ☰ Create a new cost group.
- ☰ Create a new cost category.
- ☰ Assign the cost category to all route operations that use the new resource.

Answer area

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

Actions

- ☰ Assign the cost group for the indirect cost to the route operation.
- ☰ Update the cost price on the existing cost categories.
- ☰ Assign the surcharge node to the resource.
- ☰ Create a new cost group.
- ☰ Create a new cost category.
- ☰ Assign the cost category to all route operations that use the new resource.

Answer area

- ☰ Create a new cost group.
- ☰ Create a new cost category.
- ☰ Assign the cost category to all route operations that use the new resource.

NEW QUESTION 86

DRAG DROP - (Topic 7)

A company uses the production control module in Dynamics 365 Supply Chain Management.

Production workers require precise instructions to know which tools and parts to use and how to use them when the workers put things together during the assembly process.

You need to configure the system to initiate mixed reality Dynamics 365 Guides for production workers.

Which four actions should you recommend be performed in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

- ☰ Enable production instruction in License configuration.
- ☰ Configure Guides integration.
- ☰ Set the size of the rendered QR code.
- ☰ Add a Guide to a resource.
- ☰ Associate a Guide to a bill of material.

Mixed reality Dynamics 365 Guides system configuration

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

Actions

- ☰ Enable production instruction in License configuration.
- ☰ Configure Guides integration.
- ☰ Set the size of the rendered QR code.
- ☰ Add a Guide to a resource.
- ☰ Associate a Guide to a bill of material.

Mixed reality Dynamics 365 Guides system configuration

- ☰ Configure Guides integration.
- ☰ Set the size of the rendered QR code.
- ☰ Add a Guide to a resource.
- ☰ Associate a Guide to a bill of material.

NEW QUESTION 87

DRAG DROP - (Topic 7)

A recreational vehicle (RV) manufacturing company is implement Dynamics 365 Supply Chain Management. All RVs are configured to order.

Quality checks show that there is an issue with the sealant used with the windows in some of the RVs.

You need to identify which RV models use the sealant and change the sealant item.

Which function should you use for each requirement? To answer, drag the appropriate functions to the correct requirements. Each function may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Functions

- Where-used
- Case management
- Expression constraint
- Configurator model attribute

Answer Area

Requirement	Function
Identify which models use the sealant.	☐
Change the sealant item.	☐

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

Functions

- Where-used
- Case management
- Expression constraint
- Configurator model attribute

Answer Area

Requirement	Function
Identify which models use the sealant.	Where-used
Change the sealant item.	Configurator model attribute

NEW QUESTION 90

DRAG DROP - (Topic 7)

A discrete manufacturer uses the time and attendance registration for production operations. All employees register daily clock in and clock out times during a 40-hour, Monday through Friday workweek. Pay periods are every two weeks. Workers are paid hourly. The production manager will create work schedules with the following windows:

- Mandatory work hours
- Work hours during which employees can leave early without accruing absences
- Work hours during which employees can work extra time

If a junior production worker works over 90 hours in a pay period, the worker will receive time and a half over 80 hours. If a senior production worker works over 90 hours in a pay period, the worker will receive double time over 80 hours.

You need to configure the system for these requirements.

Where should you configure this functionality? To answer, drag the appropriate forms to the correct requirements. Each form may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Forms	Answer Area						
Workers	<table border="1"> <thead> <tr> <th>Requirement</th> <th>Form</th> </tr> </thead> <tbody> <tr> <td>Configure the overtime calculations.</td> <td></td> </tr> <tr> <td>Configure the periods of time that a worker can choose whether to work.</td> <td></td> </tr> </tbody> </table>	Requirement	Form	Configure the overtime calculations.		Configure the periods of time that a worker can choose whether to work.	
Requirement		Form					
Configure the overtime calculations.							
Configure the periods of time that a worker can choose whether to work.

NEW QUESTION 95

DRAG DROP - (Topic 7)

A beverage manufacturing company is implementing Dynamics 365 Supply Chain Management. The company will use the batch balancing functionality to create the beverages. IngredientA must be configured for a target value of 40 with a minimum of 35 and a maximum of 45. IngredientB must be configured to account for target value variances.

You need to configure the ingredient-based calculations

Which ingredient type should you configure for each requirement? To answer, drag the appropriate ingredient types to the correct requirements. Each ingredient type may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

Ingredient types	Answer Area						
None	<table border="1"> <thead> <tr> <th>Requirement</th> <th>Ingredient type</th> </tr> </thead> <tbody> <tr> <td>IngredientA: target value of 40 with a minimum of 35 and a maximum of 45</td> <td></td> </tr> <tr> <td>IngredientB: account for target value variances</td> <td></td> </tr> </tbody> </table>	Requirement	Ingredient type	IngredientA: target value of 40 with a minimum of 35 and a maximum of 45		IngredientB: account for target value variances	
Requirement		Ingredient type					
IngredientA: target value of 40 with a minimum of 35 and a maximum of 45							
IngredientB: account for target value variances							
Active							
Compensating							
Filler							

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

Ingredient types

- None
- Active
- Compensating
- Filler

Answer Area

Requirement

IngredientA: target value of 40 with a minimum of 35 and a maximum of 45

IngredientB: account for target value variances

Ingredient type

- Active
- Compensating

NEW QUESTION 96

HOTSPOT - (Topic 7)

You are the production scheduler at a manufacturing company. You schedule estimated production orders and ensure that capacity is used efficiently. You have an order that must be scheduled at the resource group level and scheduled backward from the delivery date specified on the production order. You need to schedule the order.

Which scheduling parameters should you use? To answer, select the appropriate option in the answer area.

NOTE: Each correct selection is worth one point.

Parameter

Selection

Scheduling type

- Job scheduling
- Operations scheduling

Scheduling direction

- Backward from delivery date
- Backward from action date
- Backward from futures date
- Backward from scheduling date

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

NEW QUESTION 105

- (Topic 7)

You are the production supervisor at a chemical processing plant.

You must track attributes for each batch of chemicals. Automated quality orders must be generated when a batch order for these chemicals is reported as finished.

You need to ensure that the values of attributes are updated and tracked.

What three actions should you perform? Each correct answer presents part of the solution. NOTE: Each correct selection is worth one point.

- A. Create a test instrument for each attribute.
- B. Create attribute types.
- C. Assign the attributes to the chemicals.
- D. Assign the attributes to the appropriate test on the test group.
- E. Set up batch attributes.

Answer: ACE

NEW QUESTION 106

- (Topic 7)

A company plans to use master planning in Dynamics 365 Supply Chain Management. The company will sell items between legal entities.

The company has several facilities across legal entities that can manufacture the same products. Some products are produced only in some plants. To meet product demand, when one facility is over capacity, another facility is used to fulfill the downstream demand.

The organizational entities are:

- LegalEntityA: Plant 1,2, and 3
- LegalEntityB: Plant4and 5
- LegalEntityC: Plant 6, 7, and 8

The following plants must be planned together:

- Plant 1, Plant 3, and Plant 4
- Plant 2, Plant 6, and Plant 8
- Plant 5 and Plant 7

You need to configure master planning for the facilities. Which configuration mechanism should you use?

- A. Production groups
- B. Item model groups
- C. Coverage groups
- D. Intercompany planning groups

Answer: D

NEW QUESTION 107

DRAG DROP - (Topic 7)

A company uses Discrete manufacturing concepts to produce cables. The company's production scheduler uses internal documents to track issues on in-process production orders.

The production scheduler must group all in-process production orders according to issues. The scheduler must be able to easily determine issues with production orders.

You need to implement a method to easily identify production orders with issues.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

- ☰ Add a note to the BOM and list the issue of the production order.
- ☰ Create an item group for issues.
- ☰ Add the item group to the production order.
- ☰ Create a production pool for issues.
- ☰ Add the production pool to the production order.
- ☰ Filter the production orders by production pool.

Answer Area

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

Actions

- ☰ Add a note to the BOM and list the issue of the production order.
- ☰ Create an item group for issues.
- ☰ Add the item group to the production order.
- ☰ Create a production pool for issues.
- ☰ Add the production pool to the production order.
- ☰ Filter the production orders by production pool.

Answer Area

- ☰ Create a production pool for issues.
- ☰ Add the production pool to the production order.
- ☰ Filter the production orders by production pool.

NEW QUESTION 111

- (Topic 7)

You work for a gem wholesaler that sells raw diamonds. Diamonds are purchased and sold in individual boxes but weighed and inventoried in carats.

You are setting up a catch weight item for diamonds. Each box of diamonds must be tracked by its individual container weight.

You need to set up this item as a full visibility catch weight item.

Which two steps must you perform? Each correct answer presents part of the solution. NOTE: Each correct selection is worth one point.

- A. Assign the item a Tracking dimension group with active serial number control
- B. Assign it a Serial number group with per qt
- C. defined as 1.
- D. Assign a Tracking dimension group with batch number as the only active tracking dimension.
- E. Create an inter-class unit of measure conversion between boxes and carats.

Answer: AD

NEW QUESTION 115

DRAG DROP - (Topic 7)

A manufacturer sends wiring harnesses to a vendor to be soldered to a connector. You create the subcontracting process in the bill of materials (BOM) and route to account for the items sent to the vendor.

You need to set up a new item model group for the service item.

Which three actions should you perform? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

- Actions**
- Create a new item model group and clear the stocked product option.
 - Add the service item and set the new inventory model group in the BOM to **FIFO**.
 - Create a new item model group and select the stocked product option.
 - Add the service item to the BOM.
 - Assign the item model group to the service item and select the stocked product option.

Answer Area

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

- Actions**
- Create a new item model group and clear the stocked product option.
 - Add the service item and set the new inventory model group in the BOM to **FIFO**.
 - Create a new item model group and select the stocked product option.
 - Add the service item to the BOM.
 - Assign the item model group to the service item and select the stocked product option.

Answer Area

- Create a new item model group and select the stocked product option.
- Add the service item to the BOM.
- Assign the item model group to the service item and select the stocked product option.

NEW QUESTION 120

HOTSPOT - (Topic 7)

A company implements Dynamics 365 Supply Chain Management.

You need to ensure that cost roll-ups and sales price calculations are configured for the scenario. Which options should you use? To answer select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Scenario	Calculation method
An item cost record is generated from a sales quotation for the customer.	<ul style="list-style-type: none"> order-specific BOM calculation order-specific BOM calculation costing-version BOM calculation
An item cost is generated from a production order estimate.	<ul style="list-style-type: none"> recording restriction calculation restriction recording restriction

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

Answer Area

Scenario	Calculation method
An item cost record is generated from a sales quotation for the customer.	<ul style="list-style-type: none"> order-specific BOM calculation order-specific BOM calculation costing-version BOM calculation

NEW QUESTION 121

- (Topic 7)

A company produces multiple products that require an installation kit that includes 50 components.

The company does not want to include these 50 components in every Bill of materials (BOM). You have a BOM kit that includes all SO components, but you do not want it to produce a separate production order.

You need to set up the product BOM for the finished good. What should you do?

- A. Select Phantom on the engineering fast tab on the kit item.
- B. Change the coverage group on the kit item to Manual.
- C. Change the line type to Pegged supply
- D. Change the line type to Phantom

Answer: A

NEW QUESTION 122

DRAG DROP - (Topic 7)

A skateboard manufacturer uses route operations to schedule resources and estimate units per hour. All products use the same sub assembly item and resource sanding process.

You observe an Increase in the number of units a sanding belt resource can produce. The production schedule is now inaccurate due to the number of units the sanding belt line can produce. You must make a permanent change to the number of units the resource can produce for all future orders.

You need to adjust the process quantity on the route operation.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

- Apply the new template to the resource's calendar.
- Create a new working time template.
- Select the calendar related to the resource.
- In the engineering tab of the subassembly item, select **route**.
- Select times on the operation that use the resource.
- In the Process qty. field, update the quantity.

NEW QUESTION 127

- (Topic 7)

You are responsible for product and formula maintenance for a paint manufacturer. You create a formula for white paint and add its lines. When the formula size increases or an ingredient changes, the quantity of the pigment ingredient must be adjusted proportionately. You need to set up the formula line for the pigment. Which formula feature should you use?

- A. Pegged supply
- B. Step consumption
- C. Scalable
- D. Variable

Answer: C

NEW QUESTION 128

HOTSPOT - (Topic 7)

A company makes engine parts used in the automotive industry.

They are in the process of retooling an existing manufacturing plant. They are looking to use Dynamics 365 for Finance and Operations to help support the Bill of Materials (BOM) product lifecycle for engineering version control.

You must translate existing production processes into the proper elements. You need to create BOM lifecycle states to translate existing production processes into the proper elements.

What type of BOM product lifecycle state should you create? To answer, select the appropriate BOM state in the answer area.

Answer Area

Scenario

Create runs for existing orders that need to be scheduled for production.

Create visibility into cost and materials estimates for prototype products.

Create visibility into cost estimates for products that use a very constrained component for the next three months.

NEW QUESTION 133

DRAG DROP - (Topic 7)

A company uses Asset management in Dynamics 365 Supply Chain Management. The company also uses Dynamics 365 Guides independently of the Dynamics 365 Supply Chain Management implementation.

Maintenance workers require a checklist template to complete work orders. A solution must help the workers through work order steps. The solution must use Dynamics 365 Guides with Dynamics 365 Supply Chain Management.

You need to integrate the solution.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

Use document management to attach a link to the guide on the maintenance checklist template record.

Complete all prerequisites for the Dynamics 365 Remote Assist configuration.

Create a guide of the maintenance checklist process in Dynamics 365 Supply Chain Management by using the task recorder.

Create a record template for a work order in Dynamics 365 Supply Chain Management.

Assign a task recording link to a step in the guide in the Dynamics 365 Guides PC app.

Create a maintenance checklist template in Dynamics 365 Supply Chain Management.

Create a guide of the maintenance checklist process in the Dynamics 365 Guides PC app.

Assign a guide to the template field on the maintenance checklist template record.

Answer area

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

Actions	Answer area
Use document management to attach a link to the guide on the maintenance checklist template record.

NEW QUESTION 136

- (Topic 7)

A manufacturing company is implementing production in Dynamics 365 Supply Chain Management.

The production scheduler requires that machines not be scheduled to run concurrently when planning production. The scheduler also must be able to see the scheduling in a graphical view.

You need to configure the system to meet the requirements.

Which three options should you configure? Each answer presents a partial solution. NOTE: Each correct selection is worth one point.

- A. Capable to Promise
- B. finite capacity
- C. bottleneck resource
- D. operations scheduling
- E. job scheduling

Answer: BDE

NEW QUESTION 137

- (Topic 7)

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear on the review screen.

A manufacturing company produces electronic components and devices.

The company has scheduling issues related to using working time calendars in manufacturing.

You need to ensure that the working time calendar is used when manufacturing jobs are scheduled.

Solution: Disable route groups for a process job type. Does the solution meet the goal?

- A. Yes
- B. No

Answer: B

NEW QUESTION 140

- (Topic 7)

Note. This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

A company implements Dynamics 365 Supply Chain Management and configures the system to support process manufacturing.

The company manufactures pain-relieving lotions. Several of the primary ingredients are delivered at different concentrations depending on the ingredient and vendor. IngredientA is the primary active ingredient in the lotion. IngredientB is used as a compensating ingredient

You need to ensure that the system is set up to support the manufacturing process. Solution: Configure the catch weight of IngredientA to allow for the variances of the

concentrations received from the different vendors.

Does the solution meet the goal?

- A. Yes
- B. No

Answer: B

NEW QUESTION 141

- (Topic 7)

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear on the review screen.

A manufacturing company produces electronic components and devices.

The company has scheduling issues related to using working time calendars in manufacturing.

You need to ensure that the working time calendar is used when manufacturing jobs are scheduled.

Solution: Enable route groups for a capacity job type. Does the solution meet the goal?

- A. Yes
- B. No

Answer: B

NEW QUESTION 146

- (Topic 7)

A customer produces light projection toys for holiday decorations throughout the year. The production process creates the projection toy at the following work cells: stands, main assembly, electric, visuals, and packaging.

Vendors must create templates for each toy they produce each season. They must manage the transfer of templates to the warehouse. Each transfer for each vendor must use the same purchase agreement.

You need to configure the subcontracted transfer activity. What should you do?

- A. Set the transfer activity Freight by value to Shipper
- B. Ensure that purchase agreements include the vendor ID of the warehouse.
- C. Set the transfer activity Freight by value to Carrier
- D. Ensure that purchase agreements include the vendor ID of the vendor.
- E. Set the transfer activity Freight by value to Recipient
- F. Ensure that purchase agreements include the vendor ID of the warehouse.
- G. Set the transfer activity Freight by value to Recipient
- H. Ensure that purchase agreements include the vendor ID of the vendor.
- I. Set the transfer activity Freight by value to Carrier
- J. Ensure that purchase agreements include the vendor ID of the warehouse.
- K. Set the transfer activity Freight by value to Shipper
- L. Ensure that purchase agreements include the vendor ID of the vendor.

Answer: D

NEW QUESTION 151

- (Topic 7)

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear on the review screen.

A manufacturing company produces electronic components and devices.

The company has scheduling issues related to using working time calendars in manufacturing.

You need to ensure that the working time calendar is used when manufacturing jobs are scheduled.

Solution: Enable route groups for a process job type. Does the solution meet the goal?

- A. Yes
- B. No

Answer: B

NEW QUESTION 152

DRAG DROP - (Topic 7)

A pharmaceutical manufacturer uses Process manufacturing.

You are consolidating planned batch orders for a specific medication. The order must cover two weeks of demand. No other items need to be consolidated.

You need to change the coverage group of the items.

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions	Answer area
☰ Create a new item number for the medication.	
☰ Change the general coverage group in the master planning parameters to the newly defined coverage group.	
☰ Delete the old coverage group from the coverage group table.	
☰ Edit the coverage period on the current coverage group on the medication.	
☰ Create a new coverage group.	
☰ Define the coverage period as the equivalent of two weeks in days.	
☰ Apply the new coverage group to the medication.	
☰ Rerun the plan.	

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

Actions

- Create a new item number for the medication.
- Change the general coverage group in the master planning parameters to the newly defined coverage group.
- Delete the old coverage group from the coverage group table.
- Edit the coverage period on the current coverage group on the medication.
- Create a new coverage group.
- Define the coverage period as the equivalent of two weeks in days.
- Apply the new coverage group to the medication.
- Rerun the plan.

Answer area

- Create a new coverage group.
- Define the coverage period as the equivalent of two weeks in days.
- Apply the new coverage group to the medication.
- Rerun the plan.

NEW QUESTION 156

DRAG DROP - (Topic 7)

You are the product design manager for a computer manufacturer.

Your new laptop model is configurable. There are restrictions on which hardware components can be selected depending on the model. You create configuration groups for hardware and software.

You need to create a new laptop item number and configurations.

In which order should you perform the actions? To answer, move all actions from the list of actions to the answer area and arrange them in the correct order.

Actions

- Create a product master with dimension-based configuration technology.
- Assign a product dimension group with an active configuration dimension.
- Create a bill of materials version and create a configuration route.
- Create the configuration variants automatically by using the Maintain configurations form.

Answer Area

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

Actions

- Create a product master with dimension-based configuration technology.
- Assign a product dimension group with an active configuration dimension.
- Create a bill of materials version and create a configuration route.
- Create the configuration variants automatically by using the Maintain configurations form.

Answer Area

- Create a product master with dimension-based configuration technology.
- Assign a product dimension group with an active configuration dimension.
- Create a bill of materials version and create a configuration route.
- Create the configuration variants automatically by using the Maintain configurations form.

NEW QUESTION 161

HOTSPOT - (Topic 7)

A lean manufacturing company is implementing Dynamics 365 Supply Chain Management. The manufacturer subcontracts a part of the production process. Items must support the subcontracting process. The subcontracted cost must be included in production. You need to configure the production process to meet the subcontracting requirements. What should you do? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

Answer Area

Requirement	Action
Set up items for subcontracting.	<ul style="list-style-type: none"> Add the stocked service item to the bill of materials (BOM). Set up cost categories. Set up the Direct outsourcing cost group type. Add the stocked service item to the bill of materials (BOM). Add the non-stocked service item to the bill of materials (BOM).
Include cost in production.	<ul style="list-style-type: none"> Set up the cost category. Set up backflush costing. Set up the cost category. Specify the bill of materials (BOM) line vendor type.

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

Answer Area

Requirement	Action
Set up items for subcontracting.	<ul style="list-style-type: none"> Add the stocked service item to the bill of materials (BOM). Set up cost categories. Set up the Direct outsourcing cost group type. Add the stocked service item to the bill of materials (BOM). Add the non-stocked service item to the bill of materials (BOM).
Include cost in production.	<ul style="list-style-type: none"> Set up the cost category. Set up backflush costing. Set up the cost category. Specify the bill of materials (BOM) line vendor type.

NEW QUESTION 165

DRAG DROP - (Topic 7)

A manufacturing company is implementing Dynamics 365 Supply Cham Management. Bill of materials (BOMs) must be calculated using standard cost principles. Miscellaneous charges must be included in the unit cost price. The explosion mode must arways be enforced as single level. You need to configure the system to meet the requirements. Which configuration should you enable for each requirement? To answer, drag the appropriate configurations to the correct requirements. Each configuration may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content. NOTE: Each correct selection is worth one point.

Configurations	Answer Area						
<ul style="list-style-type: none"> Cost categories Fallback principle Calculation restriction Recording restriction 	<table border="1"> <thead> <tr> <th>Requirement</th> <th>Configuration</th> </tr> </thead> <tbody> <tr> <td>Include miscellaneous charges.</td> <td><input type="text"/></td> </tr> <tr> <td>Enforce the single-level explosion mode.</td> <td><input type="text"/></td> </tr> </tbody> </table>	Requirement	Configuration	Include miscellaneous charges.	<input type="text"/>	Enforce the single-level explosion mode.	<input type="text"/>
Requirement	Configuration						
Include miscellaneous charges.	<input type="text"/>						
Enforce the single-level explosion mode.	<input type="text"/>						

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

Configurations	Answer Area	Requirement	Configuration
Cost categories		Include miscellaneous charges.	Recording restriction
Fallback principle		Enforce the single-level explosion mode.	Calculation restriction
Calculation restriction			
Recording restriction			

NEW QUESTION 166

- (Topic 7)

You are responsible for training the operations staff on production transactions in Dynamics 365 Supply Chain Management. The company uses backflushing for material consumption principles.

You need to train the operators on how to report unintended scrap.

What are two possible ways to achieve this goal? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Post additional materials in a picking list journal.
- B. Report an error quantity at Report as finished.
- C. Report an additional good quantity at Report as finished.
- D. Report additional time in route card journal.

Answer: AB

NEW QUESTION 170

- (Topic 7)

A co uses the asset management module in Supply Cham Management. The company has four conveyer systems in the warehouse. A robotic crane moves pallets of products to its conveyer int. Each robotic crane and conveyer line is considered a multilevel asset.

A work order arrives for a conveyer system. A technician completing the work observes that the robotic crane needs a repair. The technician is not qualified to work on the robotic crane.

You need to ensure that the robotic is repaired.

Which two options should you configure? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Calculate capacity load with the level field set to 0.
- B. Create a related work order.
- C. Update the work order Lifecycle state.
- D. Create a manual work order.
- E. Calculate capacity load with the level field set to 1.

Answer: BD

NEW QUESTION 175

DRAG DROP - (Topic 7)

A company makes lubricants and greases used in the automotive industry. The company plans to implement Dynamics 365 Supply Chain Management.

The system must meet the following requirements:

- Schedule the batch production of products.
- Plan for inventory fluctuations of ingredients that are used across different products.
- Schedule delivery of amounts of proprietary compounds used during production from vendors to keep production runs on schedule and eliminating excess stock on hand or delayed production.

You need to perform the initial setup of the company's Dynamics 365 environment.

At which level should you set up the items? To answer, drag the appropriate setup levels to the correct setup options. Each setup level may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Setup levels	Answer Area	Setup option	Setup level
Inventory level		Warehouse location	
Item level		Catch weight	
		Batch number group	
		Safety datasheet	

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

Setup levels	Answer Area	Setup option	Setup level
Inventory level		Warehouse location	Inventory level
Item level		Catch weight	Item level
		Batch number group	Item level
		Safety datasheet	Item level

NEW QUESTION 179

- (Topic 7)

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

A company implements Dynamics 365 Supply Chain Management and configures the system to support process manufacturing.

The company manufactures pain-relieving lotions. Several of the primary ingredients are delivered at different concentrations depending on the ingredient and vendor ingredient A is the primary active ingredient in the lotion. IngredientB is used as a compensating ingredient.

You need to ensure that the system is set up to support the manufacturing process. Solution: Create a dimension-based product master with variants and use the trade

agreements to specify the different pricing.

Does the solution meet the goal?

- A. Yes
- B. No

Answer: B

NEW QUESTION 182

- (Topic 7)

A beverage company uses Dynamics 365 Supply Chain Management batch processing for production-

You need to identify the ingredient type used in batch processing when the base attribute of a product is added to a formula line.

What is the ingredient type?

- A. active
- B. compensating
- C. filler
- D. none

Answer: A

NEW QUESTION 187

DRAG DROP - (Topic 7)

A company is implementing Dynamics 365 Supply Chain Management The company is a subcontractor that produces subassemblies for two major customers. CustomerA and Customers

The company prioritizes CustomerA production orders to start on Mondays. The production orders may take several days to complete. Customers?? orders are produced throughout the week, after CustomerA orders are completed. Work in process (W1P) must be calculated and consolidated for CustomerA and CustomerB respectively on the financial reports.

You need to configure the production requirements.

What should you configure? To answer, drag the appropriate configurations to the correct requirements. Each configuration may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Configurations	Answer Area	Requirement	Configuration
Route group		Prioritize CustomerA orders.	
Production unit		Separate WIP on financial reports.	
Production pool			
Production group			

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

Configurations	Answer Area	Requirement	Configuration
Route group		Prioritize CustomerA orders.	Production pool
Production unit		Separate WIP on financial reports.	Production group
Production pool			
Production group
